## Programme Learning Outcomes (PLOs)

On successful completion of this programme the learner should be able to :

#	Description
PLO1	Apply systematic knowledge and skills at the forefront of the field of adult respiratory nursing practice.
PLO2	Critically appraise evidence of current problems and/or new insights informed by the latest research related to adult respiratory nursing practice.
PLO3	Analyse, interpret and prioritise research sources and findings related to adult respiratory nursing practice.
PLO4	Select from a range of complex and advanced skills across the adult respiratory nursing care spectrum; develop new skills to a high level, including novel and emerging techniques.
PLO5	Act in a wide and often unpredictable variety of professional levels and ill defined contexts related to adult respiratory nursing practice.
PLO6	Take significant responsibility for the work of individuals and groups; lead and initiate activity related to the care of adults experiencing respiratory health issues.
PLO7	Self-evaluate and take responsibility for continuing academic / professional development.
PLO8	Scrutinise and reflect on social norms and relationships and act to change them.
